### WORKING WITH YOU

At TruGreen, we understand that well-maintained landscaping can increase residential pride and maintain property value. When you partner with us, we'll tailor our programs to meet the requirements and needs within your city for each property based on the turf type and environment.

### FOUR DECADES OF TRUST

With more than 40 years of experience, we are fully licensed and insured, providing business coverage for 93% of America with 8,500 fleet vehicles that are staffed up and always ready to serve your specific needs.

### TIMELY SERVICE

We understand the importance of timing of services. Great results for you are our priority, and we'll proactively handle your concerns and needs.

### SCIENTIFIC APPROACH

Our experts use state-of-the-art equipment for tailored, scalable solutions to help you save time and money.

We use advanced tech that provides a specialized analysis report of the property during each visit, giving you additional property monitoring.

### PEACE OF MIND

With TruGreen on your side, you'll never have to worry about equipment costs, product storage or additional employee training. We'll also provide easy itemized, consolidated billing for your added convenience.

### NO-HASSLE GUARANTEE

We make our partnerships as easy and productive as possible. At TruGreen, our work is never done until you are satisfied with the results.

# PROFESSIONAL LAWN CARE

## FIRST IMPRESSIONS MATTER

They matter to your employees and to your customers. And they matter to your bottom line. When you've got professional lawn care and turf management services from TruGreen®, you'll always make the right impression. Your custom plan may include:

- **Lawn fertilization** - Our formula is applied at key points in every season to stimulate and maintain growth
- **Weed control** - Prevent, eliminate and manage the spread of various weeds as they pop up throughout the year
- **Lawn damaging insect control** - Fights a variety of insects before they cause damage
- **Weed and vegetation control** - Weed prevention in bare ground or gravel areas, fence lines, on footpaths, in parking lots and throughout planted landscapes
- **Core aeration and seeding** - Opens compact soil to the flow of air, water and nutrients; fills in thinning areas of turf with new seed
- **Soil amendment** - Balances pH for optimal lawn growth; improves nutrient availability, rooting and microorganism activity

# TREE & SHRUB

## SAFEGUARD YOUR TREES AND SHRUBS

We work through the seasons to enhance and safeguard your trees and shrubs, helping ensure the best return on your investment.

### **Your customized Tree & Shrub program may include:**

- A consultation and cost estimates
- Root-zone fertilization
- Insect and disease control
- Winter protection
- A specialized tree injection program

TruGreen® will gladly visit your property as needed between scheduled visits to ensure your satisfaction.\*

**TRUGREEN®**  
COMMERCIAL

The TruGreen® Tree & Shrub program includes fertilization of common trees and shrubs, and controls common foliar insects and diseases. It does not include treatment of specialty trees such as fruit or certain ornamentals, or assessment and treatment of trees over 25 ft. in height. For more details, go to TruGreen FAQs at [TruGreen.com/FAQTREE](http://TruGreen.com/FAQTREE).

# TURF AERATION AND OVERSEEDING

## KEEP YOUR TURF HEALTHY YEAR AFTER YEAR

Compacted soil caused by summer heat and traffic can lead to dead spots, unsightly patches and thinning in your turf.

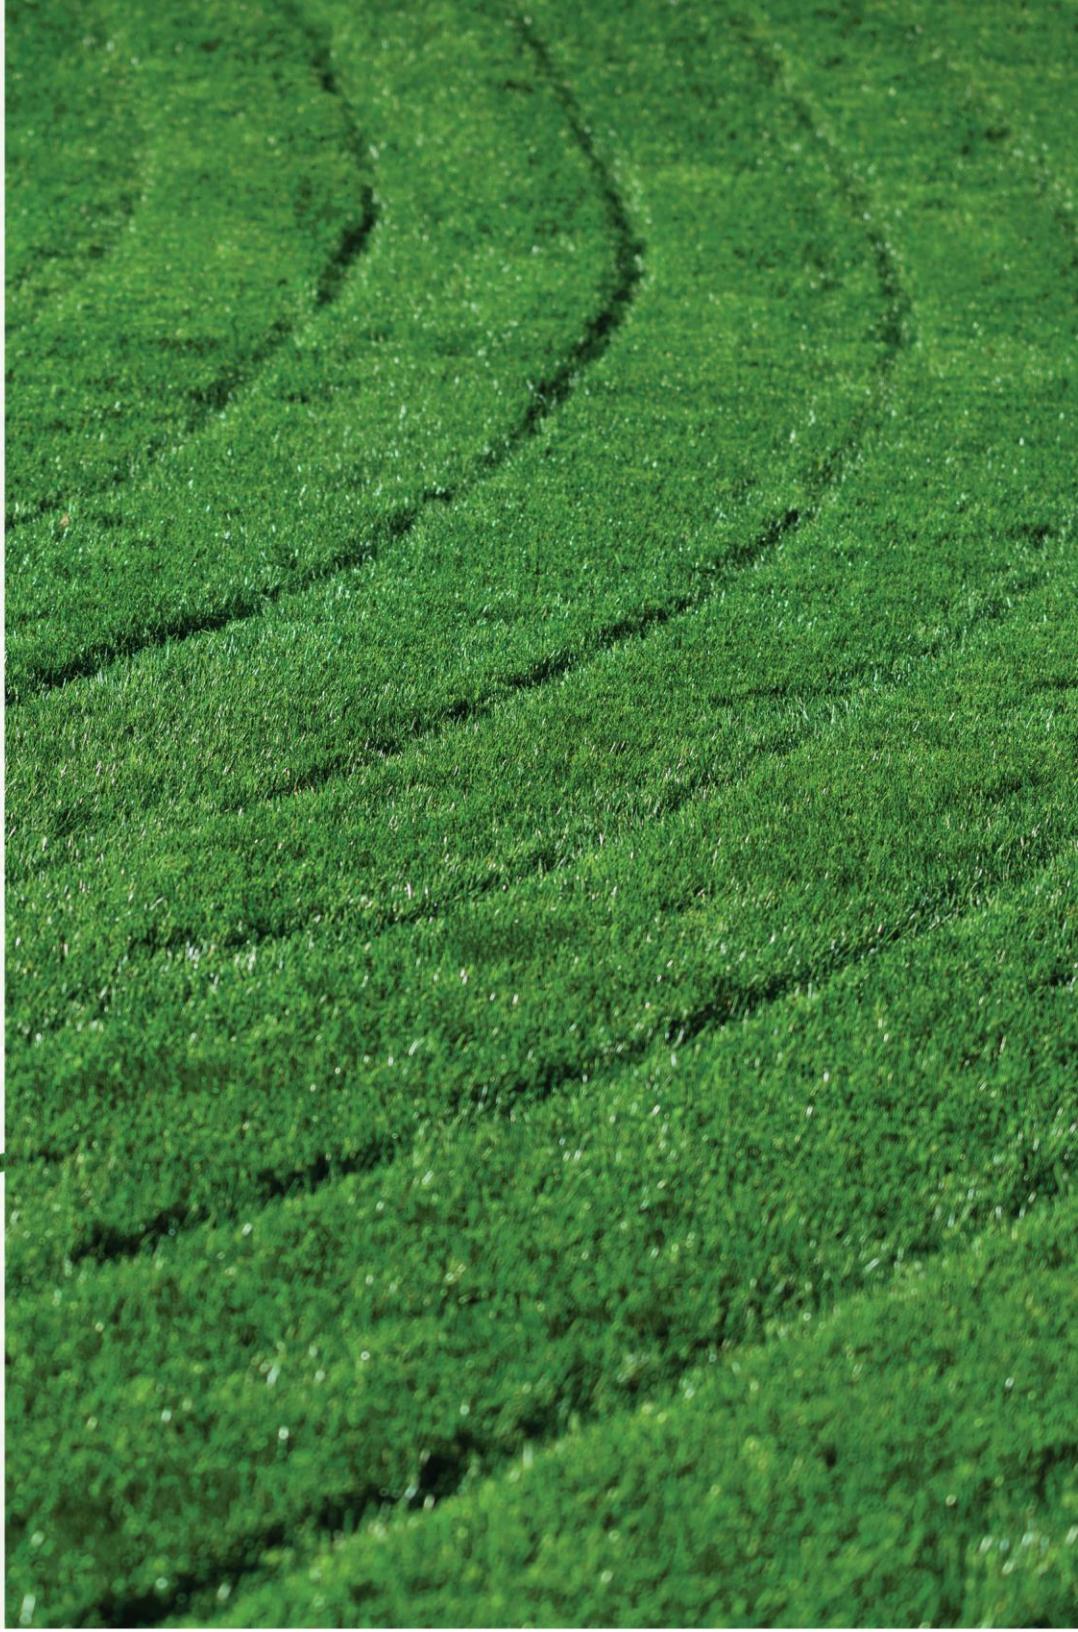

**Annual aeration is one of the best ways to ensure your lawn's health by promoting:**

- Stronger roots
- Less soil compaction
- Thatch breakdown
- Increased water and nutrient absorption
- Fewer lawn pest and disease problems

# VEGETATION CONTROL

## KEEP YOUR PROPERTY CLEAR OF WEEDS AND BRUSH

Proper weed control protects property value, preserves your community relationship and shields you from potential legal liability. Whether you have several acres or a single weed-choked pathway, we prevent weed growth in:

- Gravel, dirt, footpaths, parking lots, planted landscapes and asphalt pavement, using pre-pavement applications
- Established plantings, bare areas and cracks in load-bearing surfaces
- Industrial areas, using pre- and post-emergence applications for long-term weed suppression

# MOSQUITO DEFENSE

## CONTROL MOSQUITO POPULATIONS ON YOUR PROPERTY

The comfort and satisfaction of your employees, guests and customers is paramount to the success of your business. Control mosquito populations on your property within 24 hours of application, guaranteed.

Our program includes a three-step process:

- **Inspect** - Check your property for areas where mosquitoes are, or could be, living
- **Treat** - Use an innovative formula and targeted application technique that controls population within 24 hours of application
- **Maintain** - Receive a monthly treatment to help protect against mosquitoes throughout the season

We guarantee our treatment is effective in controlling mosquito populations within 24 hours, and with significant reduction for as long as 30 days after your service. If you're not 100% satisfied with the results, we will gladly re-treat at no additional cost.\*
